

Homogen B1

Sustainable, raw chipboard with integrated fire protection

Sustainable: Created from residual wood, sourced locally, using the most modern, environmentally friendly processes, at FunderMax, we're not only making great efforts to save natural resources, we've added even more ecological value too.

Certified: Homogen B1 is flame retardant and meets all the requirements for the following certifications:

- EN 13501-1 classification B-s2,d0
- DIN 4102-1 classification B1
- ÖNORM A 3800-1 (classification flame-resistant, Tr 1, Q1).

Prudent: Benefit from great value for money. We have made Homogen a global bestseller by maintaining a strong customer focus in commercial and industrial sectors.

Versatile: The material is almost infinitely versatile, and can be veneered with real wood, coated with decorative papers, covered with foil or pasted with laminated or mineral materials. We also offer moisture resistant laminates, and highly compressed boards for extreme loads - ideal for concrete framework, raised floors, storage facilities, or laminate floors, for example.

PRODUCT DETAILS

FORMAT

2820 x 2070 mm

THICKNESSES

12 mm, 16 mm, 18 mm, 19 mm, 22 mm, 25 mm, 28 mm

Minimum quantity: 1 pallet

Special formats and thicknesses available upon request.

Star Favorit B1

Extensive decors, excellent fire resistance

Endless design possibilities combined with reliable fire protection - that's Star Favorit B1: a double-sided melamine resin chipboard, which is highly flame retardant and available in a wide range of decors.

We can reference numerous projects around the world - including airports, restaurants, hospitals, schools, sports halls and retirement homes - which already use the design potential of Star Favorit B1 and showcase the perfect combination of look and performance.

PRODUCT DETAILS
